There's more to say, but for now I'll just say SAP Code Connect in person had that something special that SAP TechEd used to have 10 years ago! Thanks for (a) great conference(s)! Great to feel more connected to the Dev community again!

It's a wrap for Code Connect! So great to meet familiar and new [#sapcommunity](#) faces in person at [#reCAP24](#) and [#UI5con](#). I enjoyed hearing other's stories and keeping up-to-date on the latest developments and whats to come. Thanks very much to the organisers and crew for making this such a wonderful event!

What a great week at CodeConnect. The highlight of the year!

Thanks to the organizers who made it possible for me to speak and the many people who make such a great community possible.

I already have ideas for presentations next year and can hardly wait.

CodeConnect is coming to an end - but we're taking more with us than just our name badge:

👉 Inspiration. Exchange. And lots of new contacts.

As a sponsor, we would like to say thank you for an all-round successful event. It was a great pleasure to meet you all in person.

Special thanks to the team for the excellent organisation - and the great evening event yesterday! 🌟 [Ole Lilienthal](#), [Sebastian Schmidt](#), [Volker Buzek](#), [Gregor Wolf](#) and Team.

The conversations weren't just exciting - they were personal, honest and inspiring. Thank you for your openness and your stories. We wish you continued success on your journey - and look forward to everything we can achieve together. [Daniel Hutzl](#), [Martin Stenzig](#), [Peter Keiner](#), [John Patterson](#), [Jörg Brandeis](#), [Martin Fischer](#), [Mike Doyle](#), [Ben Patterson](#), [Neil Prince](#), [Holger Schäfer](#), [Adrian Vaughan](#), [Harikishore Sreenivasalu](#), [Daniel Schipper](#), [Helmuth Tammen](#), [Bastian Möhring](#) and [Mauricio Lauffer](#).

We hope to see many of you again before next year - and to everyone else: See you at the next CodeConnect at the latest!

👉 What has particularly impressed you over the last three days? Share your impressions - we look forward to your highlights!

Finally back home from [#CodeConnect2025](#) - three intense days across [#UI5con2025](#), [#reCAP2025](#), and [#HANATechCon2025](#). Totally exhausted, but it was absolutely worth it.

Met so many amazing people, both new faces and long-time connections from across the (SAP) world. I learned a ton, had great conversations, and most importantly, had a lot of fun.

I had the opportunity to present two talks at reCAP, one on CAP & Apache [#Kafka](#) using cds-kafka and the other one on cds-caching, with a sneak peek at cds-data-replication. Even though 20 minutes isn't a lot of time to cover these topics deeply (🙄), I hope I managed to give a solid overview and spark some interest in the plugins.

Some thoughts that stuck with me:

- ✅ (Good) CodeConnect itself was excellent and extremely well organized across all three days.
- ✅ (Good) CAP is clearly gaining serious traction within SAP, with many teams working on new features and deep integration (e.g. Business Data Cloud).
- ✅ (Good) HANATechCon was a fantastic addition this year - packed with interesting sessions and passionate folks. While ABAPConf was a great add last year, HANATechCon definitely also belongs in the mix. They both do for the future.
- 👎 (Mixed bag) UI5 innovation is happening, mostly in tooling and web components, but the core framework feels a little stagnant.
- 👎 (Mixed bag) The talks were great, but felt a bit SAP-heavy. More community voices would really balance things out.
- ❌ (Bad) Corporate politics are stifling innovation regarding UI5 2.0 and the new licensing that basically blocks CAP9 outside of BTP is just... frustrating.

Already looking forward to next year!

We are thrilled to have participated as the Platinum Sponsor at [#reCAP2025](#) in St. Leon-Rot!

At [#Aarini](#), we are passionate about empowering enterprises to transform into [#Intelligent](#) and [#Sustainable](#) operations using modern business technology platforms.

Why do we sponsor [#reCAP](#)?

- 🚀 Drive Innovation: We believe in fostering a vibrant SAP and Cloud Development community. re>CAP is the perfect platform for exchanging ideas, sharing best practices, and building tomorrow's digital solutions together.
- 👤 Community Engagement: The event's hybrid format allows us to connect with professionals worldwide, both onsite and virtually, reinforcing our commitment to knowledge sharing and collaboration.
- 🔧 Hands-On Learning: From technical deep-dives to interactive workshops, we were inspired by the energy and curiosity of participants eager to push the boundaries of what's possible with SAP CAP and beyond.

A heartfelt thank you to the organizers, sponsors, speakers, and everyone who made re>CAP 2025 a success. We look forward to driving Digital Transformation together and shaping the future of Enterprise Tech.
